PRAYER PARTNERS

We need people to partner with us through prayer. We will keep you well informed with specific prayer requests and answers to prayer.

FINANCIAL PARTNERS

We need people to partner with us financially. We will keep you well informed with ministry updates of what God is doing and what we are doing with your support.

SHORT OR LONG-TERM MISSIONARIES

Join our team — we are looking for people who are interested in joining our ministry in Jamaica.

SPECIFIC GIVING OPPORTUNITIES

HEARTBEAT FUND

Funding the parts of the ministry that are central to the viability of our organization. If Heartbeat is not fully funded, the ministry suffers.

- Home office
- Ministry travel
- Support personnel
- Nuts and bolts of running a ministry
- Emergencies
- Public Relations
- Communication

MIKE, JAYNE & JASE KAUFFMAN

Our newest missionaries are seeking financial partners. They still need \$350/month to be fully supported.

NEIGHBORHOOD MINISTRIES

Ministry to our Jamaican community has blossomed again and finances are needed to continue its expansion. Please consider partnering monthly through this fund.

TEAMS HOUSE EXPENSES

The monthly maintenance cost for the Ministry Hub and the Residence is about \$2,500, and things tend to wear out quicker in the tropics.

CONSTRUCTION FUND

We have built over 80 homes as a ministry (we build about 4 homes a year), and each home costs \$6,000. Choosing to sponsor a home as a church, Sunday School class, or Small Group is a great way to get involved.

BIBLE TRAINING CENTER of JAMAICA

The goal for the Training Center is to be self-supporting – but we are not there yet. Your gifts enable the school to continue growing until it can stand on its own two feet.

GATE MINISTRY

Meeting critical needs of people who cannot provide for themselves, such as food, clothing, shelter, medicine. As a ministry we are purposely located in one of the poorest areas of Jamaica.

TEAMS HOUSE PROJECTS

Purchasing a new property five lots down from TEAMS House was step one of our ministry expansion plans. Step two involves building/renovating on both properties: relocate water tanks, build storage building, renovate outdoor bathroom and shower, finish Caretaker house interior, install additional solar panels, add water tanks to collect rainwater for yardwork, fencing around new property – price tag: \$50,000.
